

An overview of EUIPO online tools

Why is classification necessary?

- Registration of trademarks puts on record your rights for everyone to see – and to do this it is necessary to say what goods or services you intend to use the trade mark in connection with.

- Online tool to help users correctly classify goods and services when filing a trademark.
- Global IP resource containing databases of 54 IP offices on one common platform.
- Enhanced predictability and certainty owing to comparative classification databases of participating IP offices.
- Taxonomy of terms for the easier use of the right classification of terms.
- Minimal delay in trademark registration.
- Free of charge

TMclass (contd.)

Some key offerings

- Verification of Goods/Services terms accepted by one office with those of other participating offices.
- Translation of trademark terms into other languages of participating offices with the assurance that the translated terms will be accepted by the participating office.
- Users can search and be assured that the terms are pre-approved before proceeding with electronic filing of the application.

Welcome to TMclass

TMclass helps you to search for and classify Goods and Services (terms) needed to apply for trade mark protection. You can also translate a list of Goods and Services and verify if those terms appear in the classification databases of the Participating Offices highlighted below.

Classification

- Online pre-clearance tool allowing **free of charge** trademark searches.
- Includes more than 35.8 million trademarks present in the official databases of 46 participating offices (including European and other international IP offices including WIPO).
- Single online resource for trademark applications and registrations of all participating offices.
- Provides the possibility of conducting basic and advanced searches. Basic searches allow rapid query searching while the advanced search allows accurate searching based on specific criterion.
- Provides setting customized alerts such as updates on selected trademarks for change of status, change of name and end of opposition period.

Some Key offerings

- Check for the availability of a trademark (and keep an eye out for competition).
- Fuzzy search for similarity spelled trademarks.
- Carry out 24/7 trademark searches in various EU languages.
- Saves time by providing a common platform for searching trademarks from all participating offices.
- First hand information from official trademark registers.
- Information updated daily from the participating offices.
- View details on trademarks such as legal status, graphic representation, list of goods and services etc.
- Save, print or export trademark information to PDF, Excel & XML.
- E-mail alerts on selected trademarks for change in status, name, opposition period ending etc.

Website address:
<https://www.tmdn.org/tmview/>

The screenshot shows the TMView website interface. At the top, there is a navigation bar with links for Home, About, News, Contact, Help, FAQ, Tutorials, and Enquiries. A search bar is prominently displayed with a search button and a clear button. Below the search bar, there is an 'Advanced search' button. The main content area is divided into several sections: 'What is TMview?' which explains that TMview shows trade mark information and lists its features (free to use, available 24/7, updated daily, and available in multiple languages); 'How can TMview help you?' which lists uses such as checking trade mark availability, finding competitors' marks, and receiving updates; and 'Trade mark offices' which lists various countries and their respective trade mark offices. On the left side, there are sections for 'Share with a friend', 'News' (with two news items dated 07-12-2015 and 02-12-2015), and 'Office information' (showing 32099799 trade marks). On the right side, there is a 'Tip of the day' section and a 'More links' section with logos for European eMark, DesignView, TMclass, and WIPO TMview.

What is TMview?

TMview shows trade mark information. It is:

- Free to use.
- Available 24 hours a day, seven days a week.
- Updated daily by the trade mark offices.
- Available in at least one official language of each integrated office.

How can TMview help you?

Use TMview to:

- Check the availability of your idea for a trade mark name.
- Find out the goods and services protected by your competitors' trade marks.
- Receive updates on selected trade marks for: Change of status, change of name and end of opposition period.

Welcome to Designview

Designview is a centralized access point to view the registered design information held by any of the participating National Offices, in a unique presentation format, independently of which office the data is coming from.

The design search tool will be based on the data of the registers of the participating offices, the WIPO and the OHIM.
